Affiliate members receive MLEP newsletters, membership mailings, including policy updates and opportunity announcements

Affiliate members are invited to attend MLEP-sponsored forest management, workplace safety, and business management training events

About MLEP...

Minnesota Logger Education Program (MLEP) is a nonprofit educational corporation that serves the professional development training needs of Minnesota's logging community.

MLEP was developed in response to the Sustainable Forestry Initiative and the 1995 Minnesota Sustainable Forest Resources Act.

MLEP programs are developed in response to emerging training needs such as best management practices and forest management guidelines.

MLEP members attend annual continuing education conferences and workshops and verify compliance with legal business requirements.

MLEP has a growing membership of over 500 Logging Business Owners and Associates who support and participate in our programs each year with an employee reach of over 2,000.

MLEP publishes the Minnesota Forest Resource Management Directory, an annual resource guide to logging professionals, forest resource managers, private landowners, and associated industries.

MLEP maintains www.mlep.org with fresh and innovative online training courses to complement traditional, in-person conferences and workshops.

MLEP Associate Members provide direct financial support and
